

VOLUME 20, NUMBER 7 - SOUTH SHORE AUDUBON SOCIETY

APRIL 1991

PRESIDENT'S MESSAGE

Joan Butkereit

My philosophy is that there is no harm in hoping, and there is grace and fulfillment in helping the natural world. Here is a partial wish list of achievable goals for 1991:

Wish 1. Passage of an Essential Habitat Bill for Endangered and Threatened Species in NY State. This has been introduced, watered down, and left in the dust by our lawmakers for the last seven years, while many other states have passed similar bills. Enough is enough. Either we protect endangered species or we don't. Each species cannot survive without a place for successful breeding and living. Please write, call, fax, or pester any NY state legislator you can to make this necessary law a reality. The major opponents have been the Empire State Builders Association and forest products lobby-ists.

Wish 2. Creation and Implementation of a National Energy Policy That Includes Conservation. To be true leaders in the world, we have to be wise as well as strong. An energy policy that includes conservation as well as exploitation would be an ethical route to long-term success and strength. Write the President and Congress.

Wish 3. Protection of the Arctic National Wildlife Refuge Coastal Plain From Oil and Gas Exploration. There are few wilderness spots on this earth that are free from man's spoils. This is one of them, and a very important one too. It's up to us to say no to energy exploration that will forever change this place. It's the only 100-mile stretch of US arctic coastline not already opened to exploration. Write President Bush and tell him of your opposition.

Wish 4. A Sane and Rational Forest Policy in the Pacific Northwest. Let's stop the ripoff of taxpayers and the carnage in the old-growth forests. Write or call everybody and urge them to really protect all of the remaining old-growth forests.

NEXT MEETING

Sandy Brenner

DATE:

Tuesday, Apr. 9, 1991

TIME:

8:00 PM

PLACE:

Freeport Memorial Library Merrick Rd. & Ocean Ave.

Merrick No. & Ocean A

SPEAKER:

Dr. George W. Loweth

TOPIC: <u>The Badlands</u>

A film presentation of the scenic and historical area surrounding Devils Tower, Mount Rushmore, and Custer State Park.

IN ORDER TO MINIMIZE WASTE, PLEASE BRING COFFEE MUGS TO OUR MEETINGS

Wish 5. Save the James Bay II Region. Demand an adequate environmental review before NY state finalizes its contract to buy power that will come from a three-part project to dam every river that flows into the east side of Canada's James Bay. The area to be impacted by the largest hydroelectric power project planned on the face of this earth will be an area twice the size of NY state. The James Bay I dams have already created reservoirs that are the size of Rhode Island, and have contaminated with mercury all the fish eaten by the local Native North Americans, by flooding areas that were never meant to be flooded. Support Assemblyman Hoyt's bill that would require an adequate project review by writing your NY State legislators and telling them to support such legislation in the NY State Senate and Assembly.

AUDUBON HOTLINE (202) 547-9017

WELCOME NEW MEMBERS

Marion Yavarkovsky

Greetings to our newest members. We hope you will take advantage of the many activities available to you. As you read this Skimmer, you will see the upcoming events. Join in — they are for you.

[For information on joining the South Shore Audubon Society, please call our Membership Chairperson, Marion Yavarkovsky, at 379-2090. The best time to call is after 4 PM, Monday through Friday.]

Baldwin Ronald W. Holloway, J. Kwiecinski
Bellmore Mr. Daniel Butler, Lisa Daber, Thomas Fenton, Capt. David Ludwig, S. Weintraub
Bethpage Mr. James Mancuso, Richard Pino, R. Smutny
Cedarhurst Dr. William H. Suskin
East Meadow Bernice Levine, Claire Michaels, Joann Miller, Leonard Vilinsky
East Rockaway Mr. William Brown, Andrew J. Matzelle
Elmont H. Donald Brooks, John Lata
Farmingdale Joyce W. Binder, Linda Dutcher, Mr. Jeffrey S. Magrane, L. C. McCaffrey,
Mr. Paul Phelan, Mr. Michael J. Rienecker, Judith Seidel
Floral Park Mark Giambalvo, Ms. G. Kreston, M. Maquine, Suzanne Olivet, Elena Terrone,
Bettilu Tubbs
Garden City Ms. Valentina Bertram, J. N. Corbridge, Ms. Kathryn S. Podwall, Agnes C. Short
Hempstead Herbert Birmingham, P. Devendittis, Mr. & Mrs. Ero Helin, Mr. Ahron Shapiro
Hicksville Jules H. Drucker, Harold H. Wagner
Levittown Larry Berke, Barbara Garriel, Betty Hallbert, John P. Hotaling
Long Beach Mr. Michael A. Doris, Dennis Dunn, Herbert J. Kaufman, Mrs. Miriam Nagle
Lynbrook Mrs. Ann Barbato, Mrs. Shelley S. Debin, Frank Giallorenzo, J. Sansone
Malverne Mr. Robert Milone
Massapequa Susan Lane, Robert A. Lubrano, Eleanore Niewohner, Ann Vartanyan
Merrick Elaine Karpinski, Mr. Louis Mamone, Walter Mintz, Robin Shamitz
Oceanside Gary Kane, Mr. A. Swick
Old Bethpage Leo E. Silverstone
Plainview Ernest Beermann, Peter Harold, Mr. Norman Mernoff, Elizabeth Wahlstedt
Rockville Centre Mr. & Mrs. T. Collins, Mrs. Brigitte S. Kahn, Mrs. Claudia C. Lande
Seaford William Kalten, Ms. Virginia M. Keinz, Sue Sutton, Barbara Weiss
Uniondale B. Komnick, Hilde Lockard, Mr. Thomas Martino
Valley Stream A. DeMonaco, Herb Magida, Merlin Markinson, Ms. Mariann McDonnell, Gina Patti,
Marion E. Raeder, Mr. Abe Weinman
Wantagh Dr. A. H. Biniaz, J. T. Dowling, Ms. Lisa A. Guggisberg, Mrs. Lauretta E. Kowalik,
Paul Moses, Mr. J. Munger
West Hempstead Herbert R. Kurss
Woodmere Barnett & Cynthia Frankel, Libby Schlagel

TACKAPAUSHA MUSEUM AND PRESERVE

Nassau County Dept. of Recreation and Parks Washington Avenue Seaford, NY 11783 (516) 785-2802

Mid-Week Movie: Wed., 4:00 PM

Apr. 3 = Introducing the Reptiles

10 = Leaves of Green

17 = Life Along the Waterway

24 = Life in the Forest

20, 21 = Dorothy and the Ostrich

27, 28 = Happy Owls

Tackapausha Presents: Sat. & Sun., 2:00 and 3:00 PM

Apr. 6, 7 = Earthworms

13, 14 =The Opossum

20, 21 = Who Cooks for You? (Barred Owls)

27, 28 = The Red-Tailed Hawk

CONSERVATION REPORT

Annie McIntyre

Conservation Committee Meetings

The Conservation Committee meets every month at my house. Any and all are welcome and needed. It'll change only if we make it happen. Meetings are scheduled for 7 PM on Mondays: April 8th, May 6th, and June 3rd. If you have any questions, feel free to call me at 379-2206.

We Need a Sane Energy Policy

President Bush has proposed an energy policy based primarily on production. While there is some emphasis on alternative fuels (including nuclear energy), all conservation measures have been deleted.

Please write him and your Senators & Representative, telling them you want a policy that plans for a livable future. Tell them you want an emphasis on renewable energy and strong conservation initiatives (such as increasing Corporate Average Fuel Economy standards by 40% by the year 2000 via Sen. Richard Bryan's S. 279 and Rep. Leon Panetta's H.R. 560 bills), and demand that they grant the Arctic National Wildlife Refuge coastal plain wilderness status.

Write to Senator Alfonse D'Amato, 7 Penn Plaza, New York, NY 10001; write to President Bush, The White House, Washington, DC 20500; write to Senator Daniel P. Moynihan, 405 Lexington Avenue, New York, NY 10174; and write to your Representative, United States House of Representatives, Washington, DC 20515.

Dances With Wolves

I recently saw a movie, one I'd heard so much about, and yet I still wasn't disappointed. Briefly for those who haven't seen it, "Dances With Wolves" depicts beautifully the way in which Native Americans lived as part of the rhythms and balance of nature. You leave the theatre with a feeling of quiet wonder, coupled with a deep sadness at the profound injustice done to these noble people. You think "What we did to these people is deplorable." Well, it's not just what we DID way back when, it's what we're DOING now. It's still going on.

In Quebec, the James Bay II hydropower project will rob the Cree of their heritage and culture by removing the center of their lives — their land. The U. S. oil companies are trying to do it to the Gwich'in people with the proposed development of the Arctic National Wildlife Refuge in Alaska. You and I can play a role in stopping these current injustices. I urge you to write or call your elected officials. Together we DO have the power to change.

After reading this month's president's message (and referring to the October & November 1990 Skimmers if you have them), write to the following regarding James Bay II: NY State Senate Majority Leader Ralph Marino, 220 Townsend Square, Oyster Bay, NY 11771 (for a bill to complement the Assembly's Hoyt-Hinchey bill), and Governor Cuomo, Executive Chambers, Albany, NY 12224.

Write to your Senators and Representative to urge support for S. 39 and H.R. 39, which would save the Arctic National Wildlife Refuge coastal plain by giving it wilderness status.

IT'S DINNER TIME AT SOUTH SHORE

Diane Singer

EARLY RESERVATIONS HELP! Please complete the form below and send it, along with your check payable to *South Shore Audubon Society*, to: Diane Singer, 118 Kent Road, Valley Stream, NY 11580.

Place: POMPEI RESTAURANT
401 Hempstead Avenue, West Hempstead, NY
Date: Tuesday, June 11, 1991
Time: 6:30 PM — Cocktail Hour

7:30 PM - Dinner

Cost: \$18.50 per person
NAME:
ADDRESS:
AMOUNT OF CHECK:
NUMBER OF PEOPLE:
NUMBER OF EACH MENU CHOICE: Chicken Parmigiana Filet of Sole Dijon Eggplant Rollatini or, if you prefer: Broiled Chicken Broiled Sole
Diviled Sole

You will walk into the World of the Caesars, Capri is your home, and the Bay of Naples is at your feet, Blue Grotto et al. Your chairpersons are Shirley Kutner & Diane Singer.

EARTH DAY 1991

South Shore Audubon Society will be joining fellow environmental groups, state and local government agencies, local colleges, and other organizations on Sunday, April 21st in a day of environmental education and fun at Eisenhower Memorial Park, located on Hempstead Turnpike in East Meadow.

At last year's Nassau County Earth Day celebration, SSAS distributed eastern white pine seedlings as part of our continuing effort to keep Long Island green. This year we will be giving away wildflower seed packets and will, of course, be providing information about our chapter's activities and some of National Audubon's most crucial concerns, including protection of the Arctic National Wildlife Refuge and the Pacific Northwest's old-growth forests. Our weekly 9:30 AM bird walk and other walks will be held at the park so that we can enjoy the start of the spring migration.

Other organizations will be providing exhibits about recycling, water conservation, hazardous materials disposal, household tips, the pine barrens, Nassau County museums, etc. Entertainment and lots more are being planned as this *Skimmer* goes to press. Scheduled hours are from 10:00 AM to 4:00 PM between Parking Fields 4 and 6, but come early to join us on the first bird walk.

DO THE BIRDS LOOK FOR US?

Harriet Shapiro

(thanks to SSAS member Naomi Epstein)

At the back of our house on the East End of Long Island, we have a finch feeder that we keep filled with linseed. We are at this house most weekends, but not all. We fill the feeder to the top before we leave for NYC, Sometimes several weeks go by between fillings.

In the summertime, the feeder is empty when we arrive, even if only four days have gone by since the last filling. However, we have noted a strange phenomenon occurs after many of the finches and nuthatches have left for warmer climes — no matter when we arrive, whether it be after three weeks absence or only four days, only a minimum amount of seed has been eaten, usually about one inch. As soon as we arrive, the birds gather on every perch and eat away. By the time we leave, three days later, at least six inches of the seed has been consumed. It seems as though the birds are merely using the feeder for emergency rations when we are gone. When we arrive, they seem to know that we will replenish the supply and do not hesitate to eat their fill. I can think of no other explanation.

Editor's Note: Anyone with an alternate explanation or any environment-related tale to tell is encouraged to call me at 541-0805. Deadline for inclusion in the next *Skimmer* is April 11th.

THEODORE ROOSEVELT SANCTUARY NATURE PROGRAMS

134 Cove Road Oyster Bay, NY 11771 (516) 922-3200

Theodore Roosevelt Memorial Bird Sanctuary is owned by the National Audubon Society and operated by the Community, Huntington Audubon Society, Lyman Langdon Audubon Society, and South Shore Audubon Society. To get there, take the Long Island Expressway to Exit 41 north. Take Route 106 into the village of Oyster Bay. Make a right on East Main Street. Go 1½ miles and you will see signs for TR Sanctuary parking. The parking lot is on your right.

The Sanctuary Grounds are open 9 to 5 PM every day. The Nature Center and Trailside Museum are open 8:00 to 4:30 PM Monday through Thursday, and 8:00 to 2:00 PM on Fridays; please call ahead for weekend hours.

Space is limited and registration is required for the following programs. All program fees are required at the time of registration.

Saturday, April 6th (10:00 to 1:00 PM) — Adults: Study Skin Preparation Workshop 1. This workshop will serve as the prerequisite for future workshops this year. The Sanctuary staff will provide the basic background and techniques needed to prepare bird study skins. Those participating will have the opportunity to view the Sanctuary's extensive skin collection and will prepare the skin of a nonprotected bird, which they may keep or donate to the Sanctuary's collection. Program fee \$15 members, \$20 nonmembers; limit 20 people.

Saturday, April 13th (10:00 to 1:00 PM) — Adults: Study Skin Preparation Workshop 2. This workshop will be the second in a series of workshops designed to further complete the Sanctuary's existing educational bird skin collection. Those participating in this workshop will be preparing the skin of a protected species which must be donated to the Sanctuary's collection. This is a great opportunity to fine tune your techniques and make a meaningful donation to the Sanctuary's educational programs. Prerequisite: Study Skin Preparation Workshop 1. Program is free; limit 20 people.

Saturday, April 27th (10:00 to 3:00 PM) — Adults: Dig Into Spring. Join the TRS staff as we tour the grounds and educational facility of this locally managed Audubon sanctuary. Take the opportunity to meet the staff and volunteers, and spend the day working outdoors preparing the Sanctuary buildings and grounds for the upcoming seasons. Work includes trail clearing, cleaning, wood splitting, ivy removal, and weeding. Wear work clothes and gloves, and bring your lunch. The Sanctuary staff welcomes all! Program is free.

1991 SOUTH SHORE AUDUBON BIRDATHONS

Doreen Remsen and James Remsen, Jr.

On MAY 11, 1991 (RAINDATE MAY 18th), the South Shore Audubon Society will take part in the 1991 Audubon Birdathon, organized by the National Audubon Society. Our members will use their birding skills to raise funds for Audubon's local programs here in Nassau as well as national environmental research, education, and action programs by getting sponsors who will pledge a certain amount for each species they see on Birdathon day.

South Shore Birdathons will be held on May 11th, starting at the following locations:

Team 1. Leader: Elliott Kutner (486-7667). Jamaica Bay Wildlife Refuge. Start time: 8:00 AM.

Team 2. Leader: Paul Butkereit (623-0843). Start time: 5:00 AM at Hempstead Lake State Park (Peninsula Blvd.). From there, this team will leave for Central Park for a 6:00 AM start.

Team 3. Leaders: James Remsen, Jr. (764-5168) and Joe Grupp (481-4208). Participants may join this group at either of two times: at sunrise (5:45 AM) at Mill Pond in Wantagh, or later at Muttontown Preserve (time to be announced; probably approx. 8:00 AM).

FOR BEGINNERS OR THOSE INTIMIDATED BY THE "BIG DAY": James and Doreen Remsen will lead a "non-birder's" Birdathon on May 4, 1991 from 9:30 to 11:30 AM at Brookside Preserve, Brookside Avenue, Freeport. All that is required are the will to have a good time and two sponsors, one of which can be yourself. For more on this, see us at chapter events or call us (phone numbers are below).

People wishing to participate should notify either the leader of their chosen team or the Birdathon chairpersons in advance of the event. The teams will move, at their discretion, from location to location throughout the day. Participants may leave at will. Members unable to attend on Birdathon day should feel free to seek pledges and count whatever birds they see, wherever they happen to be that day, and forward their pledges and bird lists to the Birdathon chairpersons.

We would like each member to be an active Birdathoner, a sponsor in his/her own right, and a recruiter of additional sponsors from both within and without the South Shore Audubon Society.

Sponsors will be expected to pledge the amount of their choice (suggestions 25¢, \$1, or other amount) per species identified by the Birdathoner and his/her team. A preselected sum, pledged regardless of the number of species seen, is also acceptable.

Birdathoners will be responsible for notifying sponsors after the Birdathon, collecting their checks (made payable to the <u>South Shore Audubon Society</u>), and forwarding them with their sponsor pledge form(s) to the Birdathon Chairpersons by <u>May 31, 1991</u>.

Additional sponsor pledge forms and information will be available at meetings and bird walks, or by contacting either of the following: Doreen Remsen, 865 1-2B Broadway Avenue, Holbrook, NY 11741 (phone 472-6830), or James Remsen, Jr., 3264 Park Avenue, Ocean-side, NY 11572 (phone 764-5168 evenings).

BEST WISHES, CAROL & BILL

Carol and Bill Herzog will be moving to 26 Hilltop Lane East, Columbus, NJ 08022 at the end of March. Bill says that they will miss everybody at SSAS and that he may travel 70 miles to join us at some Jamaica Bay Wildlife Refuge bird walks. South Shore Audubon Society will miss them and wishes them well.

Bill Herzog's charming, honest, and persistent attempts at selling Bausch & Lomb / Bushnell binoculars and spotting scopes, as well as Golden Field Guides, will be a difficult act to follow, but two SSAS members have come forward to accept the challenge. They are Joseph Lancer and George Popkin; both may be seen at bird walks and have been added to the phone directory on the last page of the *Skimmer*.

BIRD WALKS

Elliott Kutner

All walks start at 9:30 AM; no walk if it rains or snows or temperature is below 25°F. Any questions? Call Elliott at 486-7667.

NOMINATIONS FOR 1991–1992 OFFICERS

At South Shore Audubon Society's general meeting in May, officers will be elected for our next fiscal year. All members attending that meeting are invited to nominate candidates from the floor and vote. The SSAS Nominating Committee has recommended the following candidates:

President — Joan Butkereit Vice President — James Remsen, Jr. Treasurer — Lennox Gordon Recording Secretary — Louise Hillen Corresponding Secretary — Ruth Grossman Director (to 6/94) — Marge Jaeger Director (to 6/94) — Richard Packert

RARE BIRD ALERT (212) 832-6523

South Shore Audubon is seeking advertisements to help support the printing and mailing of the *Skimmer*, which currently has a circulation of over 2100 copies. Our smallest ad (one-eighth of a column) costs just \$20, and a quarter-page ad costs \$60. Other sizes are available. We reserve the right to review ads. For information, please call Elliott Kutner (486-7667) or Michael Sperling (541-0805).

Shouldn't your child's school unite art and science in teaching?

Teachers at the Waldorf School of Garden City bring science alive through artistic teaching. They add depth to the arts by relating them to historical experience. Our broad, interdisciplinary, required curriculum produces well-rounded, capable and confident students. To find out more about our unique and challenging program, please call for a tour or a brochure.

CAMBRIDGE AVENUE, GARDEN CITY, NY 11530

TRIP TO BRIGANTINE

Diane Singer

We are planning a very exciting trip to Brigantine National Wildlife Refuge on Saturday, May 4th — leaving at 7:00 AM and returning about 9:00 PM. Brigantine is located on the shore of southern New Jersey and is one of the prime stopovers in the migration of shore-birds from South America to Canada and the arctic tundra. The beginning of May is the time that these shorebirds (Ruddy Turnstones, Dunlin, Plovers, Red Knots, Dowitchers, etc.) usually stop at Brigantine due to the laying of Horseshoe Crab eggs, which these birds devour. We will also see many other species of water-birds (Herons, Egrets, Terns, etc.), plus many warblers.

We will be going to Smithville Inn for dinner. Smithville is an old-fashioned village with many interesting and unusual shops. There will be a choice of entrées.

Please make out your check for \$35 (which includes dinner and coach fare) to South Shore Audubon Society and send it to Mrs. Diane Singer, 118 Kent Road, Valley Stream, NY 11580. We can only fit 45 people on the coach, so send in your check as soon as possible. If you have any questions, please call 561-6118.

BETTER BIRDS AND GARDENS

Cornell Laboratory of Ornithology

Days are growing longer and now is the time to start thinking about turning your garden into a haven for birds. You can receive a free copy of an article from Living Bird magazine, the quarterly publication of the Cornell Laboratory of Ornithology, that tells you how to get started.

The Lab recently remodeled its bird feeding area to create a state-of-the-art garden that exemplifies techniques you can use to attract birds to your own property. First we replaced the straight-edge shore of the pond with a more attractive and accessible curving line. Then we planted trees, vines, shrubs, and groundcover to attract and feed birds year round: conifers, Juneberry, bush honeysuckle, winterberry, and trumpetvine. Finally, we added new, squirrel-resistant feeders, a bird-bath, and a waterfall.

The area now contains all the elements of an ideal bird-attracting garden. It provides a range of elevations for perching and nesting. It produces a variety of seeds, grains, and fruit, and food is present every month of the year. Edges between different types of plants and between water and land are extensive and curved — edge attracts birds and gives the best viewing for observers.

By sending us a self-addressed, stamped envelope, you can learn more about landscaping for birds, including suggestions of plants, birds they will attract, and sources for detailed plant lists and gardening ideas. Write to: Cornell Laboratory of Ornithology, EIS Dept. N1, 159 Sapsucker Woods Road, Ithaca, NY 14850.
