VOLUME 28. NUMBER 8 — SOUTH SHORE AUDUBON SOCIETY **MAY 1998**

PRESIDENT'S MESSAGE

Doreen Remsen

The first Tuesday of the month is a special time for me... it is the day I arrive at my South Shore Audubon "west office" (my parents' home in Oceanside), line the daybed with every piece of correspondence, phone message, pending meeting/personal appearance request received during the month prior, then assemble all the copies of pending legislation, committee chairs' correspondence to be distributed at the board meeting, along with 23 copies of everything I've already acted upon (this has now spread to the floor in rows usually two deep) and then announce in a voice similar to the honking of a Canada Goose, "NO ONE BOTHER ME FOR THE NEXT THREE HOURS!!!" Of course, once the announcement has been made, the migration to the back room begins. My Mom comes to the door to update me on the news, shake her head at my wonderful organizational skills on display all over the bed and floor, commenting, "Your brother never had any of this when he was president." My Dad comes in as I begin my President's Message and wants to check that his disk is not in the drive of the PC. I tell them all goodbye and then I am left to begin my monthly ritual of preparation and writing. It is a ritual that is repeated every month at "South Shore West," and so, to my family who allow me to migrate home every month, "honk" my arrival and "hiss" as I defend my mountains of recycled paper — thank you!

As stewards of the environment, all of us have a responsibility to speak out when something is not right and & threatens that which is fragile and irreplaceable. This month I am asking all of you to let your viewpoint and & voice be heard regarding the proposed construction of a 16-foot-wide multiple-use asphalt bicycle path at 🤣 Jamaica Bay Wildlife Refuge. Briefly, the proposed path project would clear the existing pedestrian sidewalk along & Cross Bay Boulevard as well as the bordering vegetated thickets on the Jamaica Bay Wildlife Refuge property. & This 16-foot corridor would include a 12-foot path plus two 2-foot shoulders on either side, and would penetrate 🕏

NEXT MEETING

Sandy Brenner

DATE: Tuesday, May 12, 1998

TIME: 8:00 p.m. (2)

PLACE: Freeport Memorial Library

144 W. Merrick Rd. (at S. Ocean Ave.)

SPEAKER: Pera Gorson

Bats!! - From Muth to Reality TOPIC:

Do you have to be batty to love bats? Pera, a bat enthusiast, doesn't think so. She will transport us on a fascinating adventure where bats, despite what some people say of them, prove to be the true masters of the night. Featuring exotic photos by Merlin Tuttle, Director of Bat Conservation International, and a tape of previously unheard bat echolocation calls, we will come away from this program with a new understanding and appreciation of the bat's role in the worldwide ecosystem.

Pera is an instructor/naturalist at Sands Point Preserve in Port Washington. She got hooked on bats several years ago when, in conjunction with the very successful bat exhibit held there, she taught elementary school classes "all about bats." They loved it and you will too. Come and enjoyl

IN ORDER TO MINIMIZE WASTE, PLEASE

BRING COFFEE MUGS TO OUR MEETINGS ****************************

50 feet into the northern and southern ends of JBWR. The resulting fragmentation from four acres of asphalt replacing vegetated growth will impact and diminish the habitat by removing the natural vegetated buffer from the six-lane s boulevard, increasing street runoff to the wetlands and bay waters, and increasing sediment and soil erosion into the wildlife refuge during and after construction.

What can you do? Letters and comments should be directed ASAP to Kevin Buckley, General Superintendent; Gateway National Recreation Area; Headquarters Building 69; Floyd Bennett Field; Brooklyn, NY 11234-7097.

His phone number is 718-338-3575.

Also call Congressman Charles Schumer's office at 718-627-9700 and ask to speak to Nicole regarding Jamaica Bay and the proposed bicycle path (which would be built with federal dollars in his district). Voice your opinion and request a public hearing.

Jamaica Bay Wildlife Refuge is a precious, fragile ecosystem and a major stopover for migratory birds on the Atlantic flyway. Once the damage is done, the effects will be profound and far beyond sixteen feet of asphalt.

NOMINATIONS FOR 1998-1999 OFFICERS

At South Shore Audubon Society's general meeting on May 12th, officers will be elected for our next fiscal year. All members attending that meeting may nominate candidates from the floor and vote. The SSAS Nominating Committee, chaired by Dolores Rogers and including Bill Hollweg & Jim Remsen, has recommended the following candidates:

President — Doreen Remsen
Vice President — Jonathan Staller
Treasurer — Nancy Frame
Recording Secretary — Christine Schmitt
Corresponding Secretary — Doris Pirodsky
Director (to June 2001) — Denise Comeau
Director (to June 2001) — Michael Goldsmith

Explore the coast with the

AMERICAN LITTORAL SOCIETY

FIRE ISLAND HIKE (Saturday, May 9th). Hike along the Sunken Forest boardwalk during peak bird migration time. See beach plum in bloom and learn about the ecology of this barrier island. Cost: \$20 includes round-trip ferry and guided tour. Bring lunch and binoculars.

MONTAUK WEEKEND (May 29-31). Enjoy extended weekend of natural history exploration and fun at luxurious Manor House. Activities include selning, tidepooling, birding, botanizing, and evening star watch. Hike the Montauk Bluffs, Walking Dunes, Hither Beaches, and visit the Montauk Light, Accabonac Harbor (optional canoe trip), and Napeague Dunes. Cost: \$245 includes 2 nights, 5 meals, 5 guided hikes, 2 evening programs, and free pickup at LIRR station.

JAMAICA BAY ECOLOGY BOAT TOUR (Saturday, June 6th, 9:30–12:30). Narrated breakfast cruise aboard 96-foot Dorothy B VIII during peak shorebird migration. See egrets, herons, ibis, shorebirds, oystercatchers, terns, and learn about the history of this great urban estuary. Cost: \$35.

For a complete listing of all local and national field trips, contact: Don Riepe 28 West 9th Road
Broad Channel, NY 11693
(718) 634-6467

** WELCOME NEW MEMBERS **

Marion Yavarkovsky

SSAS welcomes this month's collection of new members. We hope you'll become active members of New York's third largest chapter by joining us for a couple of hours at our next monthly meeting (the last until September) or on a Sunday morning bird walk. They're free, they're educational, and they're fun. Try one!

[To receive an application for membership in National Audubon Society and SSAS, please call Doreen Remsen at 472-6830 or send a postcard to SSAS. Introductory first-year membership is \$20; \$15 for students and senior citizens.]

HOFFMAN CENTER WALK

Dolores Rogers

On **Saturday, May 16th**, from 9:30 A.M. to noon, at the height of spring migration, a Theodore Roosevelt Sanctuary naturalist will lead SSAS on a songbird and wildflower

walk at the new Hoffman Center in Muttontown (6000 Northern Boulevard/Route 25A, on the south side of the street, west of Route 106 and one driveway west of Martin Viette Nurseries). Bring lunch; rain cancels, but if it drizzles it's on!

The Hoffman Center encompasses more than 155 acres of the former Brewster Estate. A 30,000 square foot Georgian-style main house and a 5,400 square foot carriage house are just some of the original buildings which were built between 1914 and 1918. There is

also a complex of barns, dairy, stables, greenhouses, and other buildings. The grounds had been turned into a golf course and the site was slated for development when the Hoffman Foundation stepped in to preserve it as a remnant of the way the north shore environment was. Many parts of the grounds are being allowed to return to natural growth. The management plan includes open meadows, secondary brush, and mixed deciduous forest. A number of small "wetlands" have been created from the ponds and water hazards of the golf course. Join us!

SSAS BOAT TRIP SCHEDIJLED

^

For the first time in many years, South Shore Audubon Society has scheduled a birding boat trip. We will be leaving Freeport at 8 A.M. on **Sunday, August 16th** for a six-hour tour of the waters on the mainland side of Jones and Tobay Beaches, aboard a 38-foot boat.

Cost is \$20; bring lunch. To sign up, mail

your check payable to South Shore Audubon
Society to Diane Singer, 118 Kent Road, Valley Stream, NY
11580-3316; please include your phone number so we can
contact you in the event of cancellation.

SSAS Post Office Statement — South Shore Skimmer is published monthly from September through December and February through June by South Shore Audubon Society, P.O. Box 31, Freeport, NY 11520-0031.

TANGLEWOOD PRESERVE IN PERIL: LETTERS NEEDED

Joan Bulkereit

Both the village of Lynbrook and the NYS Department of Environmental Conservation have a project before them that would, if granted, allow a five-story, 98,000 square foot commercial residence with truck loading docks and dumpsters to be built within 25 feet of the protected wetlands of Tanglewood Preserve. Although wetlands law provides the means for protecting 100 feet of adjacent land, the NYS DEC might grant permits to develop within this adjacent area.

Please write to Mr. Charles Hamilton, NYS DEC, SUNY Building 40, Stony Brook, NY 11790-2356 and ask that Tanglewood Preserve, a unique and strikingly beautiful wetlands, be protected to the fullest. Send a copy of your letter to Mr. Thomas S. Gulotta, Nassau County Executive, 1 West St., Mineola, NY 11501-4895; Tanglewood is owned by Nassau County.

Doreen Remsen

Once again, all South Shore Audubon Birdathoners are invited to gather after the Big Day to tabulate our chapter's grand total of species seen, share stories about the "one that got away," and simply enjoy each other's company! It doesn't matter if you are an independent Birdathoner or a member of one of the three formal teams — we hope you'll join us!

This year we will be meeting at Super Buffet, an all-you-can-eat Chinese buffet located on Merrick Road (corner of Morris Avenue) in Rockville Centre, at approximately 5:45 P.M. The cost is \$9.95 per person, and the seating is on a first-come/first-served basis. There are large group tables available to accommodate 15–20 people, so as soon as enough of us arrive, we'll request a "family" table. So bring your bird list and appetite on Saturday, May 9th (rain date May 16th) to the Super Buffet!

Oct. 4	Massapequa Preserve (LIRR N.E. lot)

SIGN UP FOR AUDUBON ADVENTURES

Suzanne Lancer

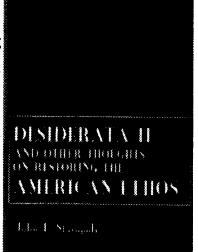

Audubon Adventures is the major National Audubon educational program for children in grades 4 to 6. For the 1998–99 school year, we can accommodate orders for Spanish language student newspapers on the following topics only: wildflowers, animal communications, marine mammals, snakes, songbirds, and ponds.

An Audubon Adventures classroom kit costs \$35 for a class of up to 32 students. An individual kit is available to the public for \$22 (if bought through SSAS, the individual kit is just \$19). Prices include shipping and handling.

The production schedule has been pushed up due to overwhelming demand, so the kits will be available in July. This means that teachers can receive their kits earlier than ever before.

For further information, contact SSAS Education Chairperson Suzanne Lancer at 536-6574.

The American self — what is its nature? What are its identifying characteristics? From his early youth, John F. Staropoli, author of Desiderata II Other and Thoughts on Restoring the American Ethos, has thought deeply and idealistically about these questions.

With a wealth of descriptive prose, the author proposes an "Americanized" version of Max Ehrmann's poem "Desiderata," in which the darkness of the American ethos emerges as the backdrop for a message of hope and for a restoration of the "American self and community."

An erudite evaluation of the current American scene, especially our weaknesses and inhibitions, this is one book that fully probes the American psyche and all of its dark undercurrents.

Before studying molecular biology at Princeton University, JOHN F. STAROPOLI was a 1994 Westinghouse finalist. His résumé includes training at the Manhattan and Juilliard Schools of Music and membership on the **South Shore Audubon Society's** Board of Directors at the

age of twelve. He was Youth Representative of the society and maintained that position for six years.

VANTAGE PRESS, INC. 516 West 34th Street New York, NY 10001

Please send me ___ copies of DESIDERATA II at \$10.95 per copy plus \$2.50 shipping and handling.

THE STATE THAT WAITED FOR ME

Jonathan Statter

Here I am once again in Arizona, birding capital of the U.S., my fourth trip out west. Unfortunately, on my previous trips I wasn't a bird-watcher yet. Although I loved the beautiful landscapes and plant specimens that are found in the various habitats, I wasn't aware of all the different birds that could be seen! So here I am in Phoenix, 1 P.M., March 10, 1998.

While driving from the airport to the place I was staying at, I saw my first bird of the state: Rock Dove (aka pigeon). The next two birds seen you could have guessed: European Starlings and House Sparrows. I should have expected them, but that's the way my life list for Arizona began.

After settling in and unpacking my luggage, I decided to drive west to Luke Air Force Base and see the F-16 fighter jets fly and do their maneuvers. They were just awesome as they flew low and fast just above my head. As I followed one jet passing a tree, I noticed a large bird perched on a branch — my first Golden Eagle, and the sun was shining right at it so I was able to see the golden feathers.

On the way back to town, I stopped by a pond and saw Cinnamon and Green-winged Teals, a Pied-billed Grebe, and some American Coot enjoying the water. I also went to Dreamy Draw Recreation Area. There are trails there that you can climb up to small peaks (2000 feet). There I saw Sage Thrasher, Black-throated Sparrow, Gambel's Quail, a Phainopepla catching insects on the fly, Abert's Towhee, and Anna's Hummingbird four times.

The next day I left for my big trip to the southeast corner of the state. I arrived at Fort Huachuca, which is an active army intelligence installation. On the property there's a place called Garden Canyon; I saw a large flock of Graybreasted (Mexican) Jays and also saw Chestnut-collared Longspurs, a Swainson's Hawk perched on a pole, Yelloweyed Juncos, a Pygmy Nuthatch, Black Phoebes, Bridled Titmouse, Lesser Goldfinch, and a Greater Pewee.

Next I went to Ramsey Canyon Preserve, which is owned by the Nature Conservancy. I saw Acorn and Strickland's Woodpeckers and a Painted Redstart. I also heard a towhee. I told a man that "if we were on the east coast it would be an Eastern Towhee, but here you have five different species." He said, "Welcome to Arizona birding!"

I ate lunch and proceeded to the San Pedro Riparian National Conservation Area, which includes the cotton-

wood-lined San Pedro River that runs up from Mexico. Here were White-headed (pictured) and Gila Woodpeckers, a White-winged Dove, Bendire's Thrasher, a colony of Bushtits making a nest, and a Redtailed Hawk that flew over. I was really impressed when I caught a glimpse of red flying by — a Vermilion Flycatcher with its

bright red body and contrasting dark back and eye mask. Beautiful!!!

I checked into a motel in Douglas, which is a mile north of Mexico. I constantly saw border patrol trucks driving by and had an encounter with one of them that night 25 miles east of Douglas in the heart of the Chihuahuan Desert. I was out on a dirt road playing a tape of owl calls. A Great Horned Owl appeared and I watched it sitting on a pole. When I was driving back to town, a border patrolman put on his sirens and pulled me over. He searched my car and all he found was bird-watching equipment. I told him I was looking at an owl before he came. He must have thought I was nuts, an illegal immigrant, or a drug smuggler; being that he let me go, I guess it was the first one.

The next day I headed northeast toward Portal on Route 80. Along the road I saw Greater Roadrunners. Western Meadowlarks, a Burrowing Owl, Lesser Nighthawk, Cassin's Kingbird, Say's Phoebe, Lark Bunting, and a flock of Chihuahuan Ravens. I arrived at the Chiricahua Mountains and tried to drive up to Cave Creek Canyon, but the roads were undrivable. El Niño's weather patterns even affected Arizona, as large amounts of snow that had fallen earlier in the season were melting onto the roads, making them hazardous to drive. I should know, since I ignored a "Road Closed" sign and attempted to drive anyway. No way! --- so I turned around and changed my plans: I drove into New Mexico and back through Arizona to Willcox. In January the town holds a birding festival; 12,000 Sandhill Cranes winter on a big lake there. Although I didn't see any cranes, I did manage to take pictures of a Harris's Hawk.

That night, I headed west to Tucson. The next morning, I went to Sabino Canyon, which is located in the Santa Catalina Mountains on the outskirts of the city. The mountains range from 2500 to 9000 feet, creating a diversity of habitats. I saw Cactus Wrens, Williamson's Sapsucker, Pyrrhuloxia, White-crowned Sparrow, Crissal Thrasher, Violet-green Swallows, a Northern Goshawk, and a Brown (Canyon) Towhee. I didn't see any snakes, but I did manage to have a run-in with a Gila monster.

When I left the canyon, I went to the western side of town and drove to Tucson Mountain Park. The Arizona-Sonora Desert Museum and western unit of Saguaro National Park are located in this area. I heard a pack of coyotes howling and saw a Merlin fly by. I also saw a Curve-billed Thrasher and a Costa's Hummingbird.

This trip definitely made up for the other three trips I've taken here. Thanks, Arizona; though it had been four years since I was here last, the birds were still here for me to see (and thanks, George P.).

MEMORIALS FOR MARY RICHARD

Doreen Remsen

There are two upcoming events which will pay tribute to the life and work of Mary Richard, the director of National Audubon's Theodore Roosevelt Sanctuary, who was killed in an automobile accident this past February. The first is scheduled to take place at Planting Fields Arboretum during their Arbor Day Festival April 25–26, 1998, 10 A.M. to 5 P.M. Bernadette Castro (NYS Commissioner of Parks, Recreation and Historic Preservation) will preside over a dedication in Mary's honor on one of the festival days. You can contact the Sanctuary at 922-3200 to find out which day Ms. Castro will be there.

A memorial service will be held on Sunday, June 28th at 3 P.M. on the grounds of TR Sanctuary. The ceremony is planned for outdoors to accommodate all those who wish to remember Mary at the place she loved best.

Belly Borowsky

This is the second of two articles describing the development of the South Shore Estuary Reserve Management Plan. To refresh your memories, the New York State Legislature adopted the Long Island South Shore Estuary Reserve Act in 1993. This act mandated the preparation of a Comprehensive Management Plan for the Reserve and, to do this, it created the South Shore Estuary Reserve Council.

This Council is comprised of representatives from the South Shore towns and villages, Nassau and Suffolk Counties, and other interested organizations, including recreation, estuary-based businesses, environmental groups, and academic institutions. To give you a flavor of the Council's composition, the two County Executives, the City of Long Beach, the Supervisors of all the Towns that border the estuary, the Great South Bay and Lyman Langdon Audubon Societies, the New York Marine Trades Association, and others are represented. In order to do the work involved in devising the Plan, three committees were formed: a Citizen's Advisory, a Technical Advisory, and a Management Advisory Committee (the South Shore Audubon Society is a member of the Technical Advisory Committee and has attempted to follow the proceedings carefully). The chairs of the Citizen's and the Technical Advisory Committees are also members of the Council.

A conscientious effort is being made to distribute information about the progress of the development of the Plan. All the Committees and the Council prepare voluminous documentation, and distribute it freely. In fact, it tends to be information overload. The interim report issued in March lists five main goals of the final Plan:

- **★** Enhance Use and Enjoyment of the Estuary
- **★** Maintain and Improve Water Quality
- ♠ Protect and Restore the Estuarine Ecosystem

- Revitalize Shellfish and Finfish Resources
- ♣ Promote Public Education and Encourage Citizen Stewardship

Specific objectives are listed under each major goal. For these details, you can obtain the report by calling 516-470-BAYS. Anyone interested in participating in this effort or who has something they would like to add to the Plan should contact me.

John Zarudsky

Volunteers are once again requested to assist the Town of Hempstead Department of Conservation and Waterways in monitoring and protecting Least Tern colonies and Piping Plover nests in the Lido Town Park/Nassau Beach area and at Silver Point in Atlantic Beach. Help is particularly needed on evenings, weekends, and holidays from May through August. If interested, please contact John Zarudsky, Conservation Biologist (and active SSAS member), at 897-4126 (work) or 486-5272 (home). The federal government and New York State have listed the beach-dwelling Piping Plover and Least Tern (pictured) as endangered species.

THANKS TO THE TACKAPAUSHA HELPERS

Our Spring Festival at Tackapausha Museum and Preserve was a huge success, drawing hundreds of people despite the soggy weather. Our volunteers included Angela Something-or-Other (who left before your editor started writing down names; please let us know who you are), Alice Blaustein, Betty Borowsky, Pat Eagen, Betsy Gulotta, Jennifer Hemmers of TR Sanctuary (with a Peregrine Falcon, Baltimore Oriole, Double-crested Cormorant, rat snake, and eastern box turtle), Carole Jacobelli, Doris Pirodsky, George Popkin and his daughter Annie (visiting from Oregon), Doreen Remsen, Chris Schmitt, Marcia Specht, Michael Sperling, Jonathan Staller, Rona Weissman, and Kevin Zdrojeski.

We're looking for even more people to sign up for SSAS's **October 17th and 18th** weekend at the Taconic Outdoor Education Center in Putnam County's 11,000 acre Fahnestock Memorial State Park. The Center includes nine heated bed-equipped rustic cabins (ten people per cabin, with rest rooms and showers in an adjacent building) and a main building with environmental exhibits and a chef from the Culinary Institute. Fahnestock State Park is primarily oak and hickory forest, with lakes and ten miles of trails; we are looking forward to seeing fall colors on the trees and going on guided hikes. Cost for the weekend is just \$50 per person. To sign up, please call SSAS *Armchair Activist* Chairperson Mary Jane Russell at 766-7397.

THIS YEAR'S BIRDATHON AND LAST YEAR'S SPECIES LIST

This year's Birdathon is scheduled to begin on **Friday**, **May 8th at 5 P.M.** and continue until the same time on **Saturday**, **May 9th** (International Migratory Bird Day). If it rains on Friday or people wake up to rain on Saturday, the Birdathon will be started from scratch on Friday, May 15th. Starting points for our three main teams appeared in last month's *Skimmer*. This is the eleventh year that SSAS has participated in the National Audubon Society's Birdathon; participants collect pledges per species seen (or pledges for a flat amount) and the proceeds are split 50/50 with NAS. For further info, call James Remsen, Jr. at 764-5168 after 8 P.M.

Last Year's List. In May 1997, a total of 149 bird species were identified by SSAS Birdathoners. Here's what we saw, as compiled by Jim Remsen (species not seen in 1996's record-breaking count of 177 are italicized):

Common Loon, Red-throated Loon, Horned Grebe, Double-crested Cormorant, Great Blue Heron, Green Heron, Little Blue Heron, Great Egret, Snowy Egret, Tricolored Heron, Black-crowned Night Heron, Glossy Ibis, Mute Swan, Canada Goose, Brant, Mallard, American Black Duck, Gadwall, American Wigeon, Green-winged Teal, Blue-winged Teal, Northern Shoveler, Wood Duck, Bufflehead, Ruddy Duck, Hooded Merganser, Red-breasted Merganser,

Turkey Vulture, Red-tailed Hawk, Broad-winged Hawk, Northern Harrier, Osprey, Peregrine Falcon, American Kestrel, Ring-necked Pheasant, Clapper Rail, American Coot, American Oystercatcher, Semipalmated Plover, Killdeer, Black-bellied Plover, Greater Yellowlegs, Lesser Yellowlegs, Solitary Sandpiper, Willet, Spotted Sandpiper, Ruddy Turnstone, Short-billed Dowitcher, Red Knot, Semipalmated Sandpiper, Sanderling, Least Sandpiper, Dunlin, Great Black-backed Gull, Herring Gull, Ring-billed Gull, Laughing Gull, Gull-billed Tern, Forster's Tern, Common Tern, Least Tern,

Rock Dove, Mourning Dove, Monk Parakeet, Black-billed Cuckoo, Chimney Swift, Ruby-throated Hummingbird, Belted Kingfisher, Common Flicker, Red-bellied Woodpecker, Red-headed Woodpecker, Hairy Woodpecker, Downy Woodpecker,

Eastern Kingbird, Eastern Phoebe, Great Crested Flycatcher, Tree Swallow, Bank Swallow, Northern Roughwinged Swallow, Barn Swallow, Cliff Swallow,

Blue Jay, American Crow, Fish Crow, Black-capped Chickadee, Tufted Titmouse, White-breasted Nuthatch, Red-breasted Nuthatch, House Wren, Carolina Wren, Marsh Wren, Northern Mockingbird, Gray Catbird, Brown Thrasher, American Robin, Wood Thrush, Veery,

Blue-gray Gnatcatcher, Ruby-crowned Kinglet, European Starling, White-eyed Vireo, Solitary Vireo, Red-eyed Vireo, Warbling Vireo,

Black-and-white Warbler, Worm-Eating Warbler, Bluewinged Warbler, Nashville Warbler, Northern Parula, Yellow Warbler, Magnolia Warbler, Cape May Warbler, Black-throated Blue Warbler, Yellow-rumped Warbler, Black-throated Green Warbler, Blackburnian Warbler, Chestnut-sided Warbler, Blackpoll Warbler, Prairie Warbler, Palm Warbler, Ovenbird, Northern Waterthrush, Common Yellowthroat, Wilson's Warbler, Canada Warbler, American Redstart,

House Sparrow, Bobolink, Red-winged Blackbird, Orchard Oriole, Northern Oriole, Boat-tailed Grackle, Common Grackle, Brown-headed Cowbird, Scarlet Tanager, Summer Tanager, Northern Cardinal, Rose-breasted Grosbeak, Indigo Bunting, House Finch, American Goldfinch, Rufous-sided Towhee, Savannah Sparrow, Seaside Sparrow, Chipping Sparrow, Field Sparrow, White-crowned Sparrow, White-throated Sparrow, Song Sparrow.

Shirley Kutner and Diane Singer have once again reserved the Banquet Room at Pompei Restaurant and Catering in West Hempstead for SSAS's annual dinner, to be held on **Tuesday**, **June 9th**. The cost is \$25; cocktail hour with hot hors d'oeuvres begins at 6:30, with dinner at 7:30. Smoking will be prohibited. Pompei's address is 401 Hempstead Avenue (take Southern State Parkway Exit 17 north for about 1-1/2 miles).

Advance registration is required (141 of us were at last year's dinner); please enclose the following form (some of the main dishes announced in last month's *Skimmer* have been changed) with your check payable to *South Shore Audubon Society* and mail them to Diane Singer, 118 Kent Road, Valley Stream, NY 11580-3316.
